D2: US 6540441
D3: US 3347052
D4: US 5111764

The invention relates to a method and a vessel for removing an offshore jacket structure. The invention according to claim 5 has been restricted by the amended fifth claim filed with the letter of 2005-08-26. Particularly by adding to claim 5 that the seagoing vessel (1) is constructed for removing, installing and transporting an offshore jacket structure. This, in combination with the two protruding auxiliary buoyancy sections (3), makes it unobvious to a person skilled in the art to modify the transport and launch apparatus to transport and launch an offshore tower described in D1 in such a way that the claimed invention according to the amended fifth claim is obtained.

The cited documents represent the general state of the art and the invention defined in amended claims 1- 10 is not disclosed by any of these documents.

Accordingly, the invention defined in the amended claims 1- 10 is novel and is considered to involve an inventive step. The invention is industrially applicable.
